

BUSINESS TELEPHONES

The SIMTEL GLOBAL business telephone range provides style, simplicity and substantial feature lists with sensible pricing for the modern business.

Compatible with PBX telephone systems as well as a standard phone line, the range is engineered to deliver the business facilities required by the advanced office.

As the mid-range model, the SIMTEL 8500 is a proven winner, with a powerful mix of business features, including:

- **2 LINE LCD DISPLAY**

Backlit display shows number dialled, call duration, date and time.

- **HEADSET COMPATIBLE**

Free your hands on the phone to improve comfort and substantially increase productivity.

- **SUPPLIED WITH BT AND RJ45 LINE CORDS**

Two line cords for compatibility with both traditional and CAT5/6 cabling.

- **24 PROGRAMMABLE KEYS**

12 one-touch and 12 two-touch memories for your most used numbers.

- **SPEAKERPHONE**

Built in 2-way speaker allows you to hold a completely hands free conversation.

- **MESSAGE WAITING INDICATOR***

Informs you at a glance of any messages requiring your attention.
