

Motorola Bluetooth™ Active Headphones S9

Stylish, comfortable and engineered with cutting-edge Bluetooth wireless technology¹, the Motorola S9 helps provide wireless access to music and voice calls – while on the go. Compatible with Bluetooth-enabled stereo music phones and with iPod players equipped with the TEN Technology naviPlay™ Bluetooth Stereo Adapter for iPod (sold separately)¹, the Motorola S9 is perfect for delivering favorite tunes and connecting you to calls wirelessly with lightweight design.

Weightless FUN

When comfort is a priority, the Motorola S9 won't weigh you down. Weighing barely an ounce, the Motorola S9 is lighter than an average pair of sunglasses! The behind-the-head form and small ear buds (1.3 centimeters) help provide true comfort – even during extended use.

Convenient music and calls controls

Calls, volume, and track controls, so you can play your music or answer a call by simply pressing the buttons on the headphones.

Work it Out

Combining ease-of-use with the latest Bluetooth wireless technology¹, the water and sweat resistant Motorola S9 is the ideal wireless headwear for the active music lover. Now, be connected and listen to favorite songs during those tough workouts, without getting tangled in wires!²

The Motorola Bluetooth Active Headphones S9 is expected to be available in first half of 2007. For more information on pricing and product availability in your region, please check with your local Motorola representative or visit <http://direct.motorola.com/hellomoto/s9/>.

¹ This device supports Bluetooth Advanced Audio Delivery, Audio Video Remote Control, Hands-free, and Headset profiles. In order for Bluetooth devices to communicate with one another, they must utilize the same Bluetooth profile. To determine the profiles supported by other Motorola devices, visit www.hellomoto.com/bluetooth. For other devices, contact their respective manufacturer.

Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices, or by certain wireless carriers. Contact your wireless carrier about feature availability and functionality.

² The use of wireless phones and/or headphones while engaged in activities requiring concentration may cause distraction or otherwise impair your ability to safely participate in such activities. Always use technology safely.
