THANK YOU

Thank you for purchasing the Jabra STONE2 Bluetooth® headset. We hope you enjoy it! This instruction manual will get you started and ready to make the most of your headset.

ABOUT YOUR JABRA STONE2

1 Answer/end button

Tap to answer/end call

2 StatusDisplay™

Shows battery and connection status

3 Light indicators on portable charging unit

Shows battery charging status (single red LED) and battery time left (One (<33%), Two (<66%) or Three green (>66%) LEDs)

4 Charging socket

Charge portable charger with micro USB wall charger

5 Earhook

Integrated in headset shape

6 Eargels

Four different ear gels assist the perfect fit

7 Clothing clip

Clip portable charger to your belt and go

WHAT YOUR HEADSET CAN DO

Jabra STONE2 is a *Bluetooth*® headset with a completely new shape that sits discreetly on your ear. It comes with an integrated portable charger that functions both as a holder and a portable charger when you are not on a call.

Your Jabra STONE2 lets you do all this:

- Answer or ignore phone calls by using your voice
- Ease of use with Jabra Voice Guidance
- Last number redialling
- Adjust volume up or down by touch control
- Voice dialling
- Three way calling
- When connected, tap the answer/end button to hear battery status
- MultiUse™ – be connected to two *Bluetooth*® devices at the same time
- Listen to music in your headset through your *Bluetooth*® A2DP enabled phone
- Battery status icon on your iPhone (Apple iPhone only)

Specifications:

Usage

1. Cutting edge technology combined with the new headset shape for the future
2. Advanced voice features allow you to be truly hands-free
3. Clear wireless streaming of your favorite multimedia – radio, podcasts, video, etc. (A2DP enabled phones*)
4. Better conversations with Noise Blackout™ Extreme
5. Portable charging unit allows you to charge on the go
6. Features voice activated call answering, voice guidance incl. Caller ID (PhoneBook Access Profile), answer/end, voice dialling*, Multiuse™
7. Bluetooth technology – easy pairing with Bluetooth 2.1 + EDR & eSCO
8. Up to 2 hours talk time in headset – 8 additional in charging stone and up to 15 days standby time
9. Automatic volume adjustment on received audio (Volume is adjusted automatically if incoming voice is too low)
10. Audio shock protection

11. Qualified for *Bluetooth*® Specification version 2.1, supporting Headset and Hands-free Profiles for phone conversations, Advanced Audio Distribution Profile (A2DP) for streaming music and Simple Secure Pairing for pairing functionality with mobile phone without pincode
12. e-SCO for enhanced audio quality
13. Up to 128-bit encryption

The device:

- On/off function is automatic. When the headset is taken out of portable charging unit, it is on, and when it is inserted into the portable charger, it is off. When your phone rings, you can take the headset out of the portable charging unit and take the call on the headset
- Charging is intelligent. The headset charges automatically when inserted into the portable charging unit ensuring that your headset is always fully charged ready for your next conversation
- Usage is voice-assisted. When using the headset there will be a guiding voice instructing you i.e. how to pair up, low battery etc.(Voice Guidance). Furthermore you can answer/ignore calls by using your own voice (Voice Control)
- StatusDisplay™ with indicators for both *Bluetooth*® connectivity and battery status ensures that you always know the status of your headset and your portable charging unit
- Size of portable charging unit and headset clicked together: H 58 mm x W 51 mm x D 25 mm
- Weight: Total weight is 33g (Headset weighs 7g and portable charging unit weighs 26g)
- Charging plug: Micro-USB 5 Pin / B Type
- Operating range up to 10 meters (approximately 33 feet)

GETTING STARTED

You should follow three steps before using your new headset:

- 1 Charge your headset (approximately 3 hours)**
- 2 Activate Bluetooth® on your mobile phone (refer to the manual for your Mobile phone)**
- 3 Pair your headset to your mobile phone**

You can also listen to the Voice Guidance to assist your pairing to your *Bluetooth*® device.

CHARGE YOUR HEADSET

Make sure that your Jabra STONE2 is fully charged before you start using it. Place the headset in the portable charging unit to charge both headset and portable charger fully for the first time before start using it. Use the AC power supply to charge from a power socket. While charging, the battery indicator on the portable charging unit shows solid red light and when the light indicator turns off, the headset and portable charger are fully charged. Charging time for both units clicked together is app 3 hours. You can use the headset during recharge of the portable charging unit.

Use only the charger provided in the box – do not use chargers from any other devices as this may damage your headset.

Please note: The lifetime of the battery will be significantly reduced if your device is left uncharged for a long period. We therefore recommend that you recharge your both headset and portable charger together at least once a month.

TURNING YOUR HEADSET ON AND OFF

Taking the headset out of the portable charging unit will turn it on.

Inserting the headset into the portable charging unit will turn it off.

- Taking it out: Place a finger on the backside of the portable charging unit and press lightly on the headset sliding it free of the charging unit. This way you easily can take it out of the charging unit with the other hand.
- Inserting it: Place the headset in the charging unit and press lightly on the headset to click the headset into the charging unit.

Please note: It is possible to turn off the headset manually without using the portable charging unit. Press answer/end button for 4-5 seconds to turn it on/off.

PAIRING IT WITH YOUR PHONE

Headsets are connected to phones using a procedure called 'pairing'. By following a few simple steps, a phone can be paired with a headset in a matter of seconds. Jabra STONE2 assists you with this process via Voice Guidance.

1 Put the headset in pairing mode

1.a First time pairing

- Take the headset out of the portable charging unit. The headset will automatically start up in pairing mode (showing flashing blue light on the Jabra StatusDisplay™) and start searching for a device.

1.b Pairing with another phone or re-pairing

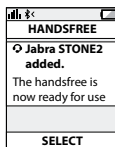

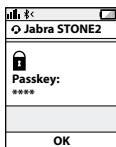

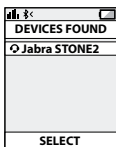

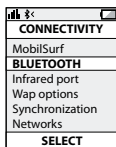

- Take headset out of the portable charging unit. Turn the headset off by long press on Answer/End button. Turn the headset on again by long press on Answer/End – keep pressing until StatusDisplay™ shows flashing blue light.

2 Set your Bluetooth® phone to 'discover' the Jabra STONE2

- Follow your phone's instruction guide. First make sure that *Bluetooth®* is activated on your mobile phone. Then set your phone to discover the headset. This usually involves going to a 'setup,' 'connect' or '*Bluetooth®*' menu on your phone and selecting the option to 'discover' or 'add' a *Bluetooth®* device.*

3 Your phone will find the Jabra STONE2

- The phone will find the headset under name "Jabra STONE2".
- Your phone then asks if you want to pair with the headset.
- Accept by pressing 'Yes' or 'OK' on the phone. If your phone asks for passkey or PIN confirm with 0000 (4 zeros). Your phone will confirm when pairing is complete. Jabra STONE2 supports *Bluetooth®* version 2.1 including Simple Secure Pairing meaning that the headset can be paired with a phone or other *Bluetooth®* device without using PIN or passkey but only if the other *Bluetooth®* device supports *Bluetooth®* version 2.1 also.

WEARING STYLE

Wear Jabra STONE2 on your right ear and enjoy the comfort. Try out the different ear gels included in the pack to find your preferred fit.

HOW TO

The Jabra STONE2 is easy to operate. The Answer/End button performs different functions depending on how long you press it:

Instruction	Duration of press
Tap	Press briefly
Double tap	Press briefly two times within 1/2 second
Press	Approx: 1-3 second
Long press	Approx: 4-5 seconds
Extra long press	Approx: 5-10 seconds

Answer a call

- Tap the Answer/End button
- Say "Answer" after the caller is announced.**

End a call

- Tap the Answer/End button

Reject/ignore a call*

- Double Tap the Answer/End button when the phone rings to reject an incoming call. Depending on your phone settings, the person who called you will either be forwarded to voice mail or hear the busy signal
- Say "Ignore"

Make a call*

- When your Jabra STONE2 is connected to your phone, all calls made from your phone will automatically be transferred to your headset. (Subject to phone settings)

Last number redial**

- Double tap the Answer/End button

Adjust volume**

- Slide your finger upwards on the front of the headset to turn up the volume and slide your finger downwards to turn the volume down

Activate voice dialling*

- Press Answer/End to activate voice dialling

Three way calling

- Press Answer/End to switch to call on hold. Press Answer/End again to switch back to first call

Show display

- Insert headset into Jabra STONE2 charger and take it out again to check battery status and connectivity status

Play music (Some phones may require that you start a Media Player first)*

- Music is controlled on the mobile phone

Answer a call while playing music**

- When listening to music and receiving a call, the music will pause and you will hear your ringtone or caller ID

All about the Jabra Voice Feature

Type	Definition
Voice Control	Your voice in action, where you guide the headset
Voice Guidance	The headset plays voice announcements to you

Voice Control	
Your voice to STONE2	What it does
"Answer"	The headset captures your command and directs the phone to take the call
"Ignore"	The headset captures your command and directs the phone to ignore the call

Voice Guidance	
STONE2 announcements to you	What it means
<p>"Welcome! You are now ready for pairing. Go to the Bluetooth menu on your phone.</p> <p>Turn on or enable Bluetooth.</p> <p>Search for devices and select your Jabra hands free device and chose pair or OK. If asked for a PIN code use 0000"</p>	<p>Announced when powered on the first time.</p> <p>Repeated after 20 seconds.</p> <p>Follow instructions on your phone</p>
"Pairing failed"	Announced if pairing process fails.
"Connected to <phone name>"**	Announced when the STONE2 is connected to a named phone
"Connected"	Announced when the STONE2 is connected, but no phone name is available
"Disconnected"	Announced If a connected phone is turned off, goes out of range or has BT disabled while in range and while the headset is still turned on.
"Low battery"	<p>Low battery warning when battery goes below 20% charge.</p> <p>To be repeated every 5 minutes</p> <p>Also when on a call.</p>
"Power off"	Announced when STONE2 is shut down

"Power on"	Announced when STONE2 is turned on
"Call ended"	Announced when call is ended
"Call from <name from phone address book or number>"**	Announced when incoming call and if the device supports Caller ID (PBAP)
"Battery level is low/medium/high"	"Battery level is high" is announced when battery has more than 50% left. If the battery level is between 20% - 50%. "Battery level is medium" is announced. If battery level is below 20% "Battery level is low" is announced.

WHAT THE LIGHTS MEAN

There are light indicators on the headset and on the portable charging unit to ensure ease of use.

Light indicators on headset:

On the inside of the headset the Jabra StatusDisplay™ indicates different states of the product. The Jabra StatusDisplay™ consists of 2 light indicators – a battery indicator and a *Bluetooth*® connection indicator. That way you will always know if the headset is connected to your phone and if your battery in your headset needs to be charged.

Headset - light indicators		
Battery indicator	Solid green light	Battery OK
	Solid red light	Less than 20 min talk time left (approx.)
<i>Bluetooth</i> ® indicator	Flashing blue light	In pairing mode
	Solid blue light	Paired with phone

Jabra STONE2 StatusDisplay™ will turn off after 4 seconds of non-activity to save battery. Only when in pairing mode the StatusDisplay™ will remain turned on for longer time (3 min).

The headset is still active.

Light indicator on charging unit:

By the charge plug on the charging unit a light indicator shows different states during charge of the product (AC charger or USB cable)

Portable charging unit - light indicator	
Solid red light	Is charging (red light will turn off when fully charged)
No light	Fully charged

Battery Status display on charging unit:

The display shows how much battery left in the charging unit. The display will light up every time the headset is inserted into the charging unit.

Battery Status display on portable charging unit	
3 green lights flashing	More than 5½ hours talk time left (>66%)
2 green lights flashing	2½ to 5½ hours talk time left (33-66%)
1 green light flashing	Less than 2½ hours talk time left (<33%)

USING YOUR JABRA STONE2 WITH TWO MOBILE DEVICES

The Jabra STONE2 is capable of having two mobile phones (or *Bluetooth*® devices) connected to the headset at the same time. This will give you the freedom of having only one headset to operate both of your mobile phones.

How to pair your Jabra STONE2 with 2 Bluetooth® devices:

- 1 Pair device number 1 with your headset using the pairing instruction above for re-pairing your headset (if device 1 is paired to your headset already go to step 2)

- 2 Turn your headset off manually by pressing the Answer/End button for 4-5 seconds
- 3 Pair device number 2 with your headset using the same pairing instruction again
- 4 Connect to device 1 again

Please note that it is important to connect to device 1 again after pairing device 2 to ensure connection to both devices.

TROUBLESHOOTING & FAQ

I hear crackling noises

- *Bluetooth®* is a radio technology, which means it is sensitive to objects between the headset and the connected device. It is designed for the headset and the connected device to be used within 33 feet (10 meters) of each other, with no major objects in the way (walls, etc.).

I cannot hear anything in my headset

- Increase the volume in the headset
- Ensure that the headset is paired to a device that is playing
- Make sure your phone is connected to the headset by tapping the Answer/End button

I am having pairing problems

- You may have deleted your headset pairing connection in your mobile phone - follow the pairing instructions in 'Pair Your Headset to a Phone or other Device'

Will the Jabra STONE2 work with other Bluetooth® equipment?

- The Jabra STONE2 is designed to work with *Bluetooth®* mobile phones. It can also work with other *Bluetooth®* devices that are compliant with *Bluetooth®* version 1.1 or higher and support a headset, hands-free and/or advance audio distribution profile (A2DP)

I cannot use Reject call, call on hold, Redial or voice dialling

These features are dependent on the ability of your phone to support a hands-free profile. Even if the handsfree profile is implemented reject call, call hold and voice dialling are optional features which are not supported by all devices. Please consult your device manual for details

Please note that some features can only be operated from the primary device e.g. voice dial using Jabra STONE2 with 2 mobile phones

I cannot hear music in the headset

- Ensure that the headset is connected to your *Bluetooth*® enabled device
- You may have been out-of-range (10 meters) to your *Bluetooth*® enabled device or the headset might have experienced an ESD (Electrostatic discharge) incidence. Press the Answer/End button to re-establish the *Bluetooth*® audio link
- Increase the volume on your device
- Make sure that the Jabra STONE2 is charged
- Turn the headset off. Wait a couple of seconds, press the answer/end button until yellow light comes on. Set your phone to discover Jabra STONE2 and your phone will find it. Connect and you should now be able to listen to music

The music I hear sounds very poor

Make sure the other device supports *Bluetooth*® 1.1 or higher including the Advanced Audio Distribution Profile (A2DP) for music streaming. If the above procedure did not help then it is possible that your phone is using the stereo audio connection in a different way. You can enable this mode on Jabra STONE2 by performing pairing in the following way:

- Remove the *Bluetooth*® connection to Jabra STONE2 on your phone
- Make sure the headset is charged
- Take the headset out of the portable charging unit
- Press the Answer/End button for 10-15 seconds until the *Bluetooth*® connection indicator shows yellow light
- Go through the regular steps in pairing the headset to a *Bluetooth*® device

Be aware that standby time of the Jabra STONE2 can be lower when using this pairing compared to the regular one.

The music player starts immediately upon connection and I hear music in the headset

- Turn the headset off. Wait a couple of seconds, press the answer/end button until yellow light comes on. Set your phone to discover Jabra STONE2 and your phone will find it. Connect and music should start only when asked for.

My Jabra product does not announce the caller names during incoming calls

- Ensure that your phone supports the *Bluetooth*® phonebook access profile (PBAP) and that the name of the caller is in your phonebook.

Please note that on some Android phones a warning message about the phonebook access appears in the top left corner. You must select this message and agree to the connection in order to get caller ID to function properly.

TAKING CARE OF YOUR HEADSET

- Always store the Jabra STONE2 with the power off and safely protected
- Avoid storage at extreme temperatures (above 45°C/113°F – including direct sunlight – or below -10°C/14°F). This can shorten battery life and may affect operation. High temperatures may also degrade performance.
- Do not expose the Jabra STONE2 to rain or other liquids.

GLOSSARY

- 1 **Bluetooth®** is a radio technology that connects devices, such as mobile phones and headsets, without wires or cords over a short distance (approx. 10 meters/33 feet). *Bluetooth®* is safe to use. It is secure too, so once a connection has been made no-one can listen in and there is no interference from other *Bluetooth®* devices either. Get more information at www.bluetooth.com.
- 2 **Bluetooth® profiles** are the different ways that *Bluetooth®* devices communicate with other devices. *Bluetooth®* phones support the headset profile, the hands-free profile or both. In order to support a certain profile, a phone manufacturer must implement certain mandatory features within the phone's software.
- 3 **Pairing** creates a unique and encrypted link between two *Bluetooth®* devices and lets them communicate with each other. *Bluetooth®* devices will not work if the devices have not been paired.
- 4 **Passkey or PIN** is a code that you enter on your *Bluetooth®* enabled device (e.g. a mobile phone) to pair it with your Jabra STONE2. This makes your device and the Jabra STONE2 recognize each other and automatically work together.
- 5 **Standby mode** is when the Jabra STONE2 is passively waiting for a call. When you 'end' a call on your mobile phone, the headset goes into standby mode.

This headset contains Li-Ion battery - Disposal according to local regulations
