

MultiPBX

ADVANCED BUT AFFORDABLE TELEPHONE
SYSTEMS FOR THE HOME AND OFFICE

The *Multi* range of highly featured small telephone systems meets the needs of SoHo (small office, home office) and residential users. The cost effective and easy to use systems set new standards by providing users with many of the benefits of larger, more expensive telephone systems in a simple and easy to use package.

Handling from one exchange line and five extensions up to two exchange lines and ten extensions, the *Multi* range of telephone systems is compatible with faxes, modems for Internet connections, intercoms and door entry systems. Network services such as Home Highway or Call Sign services can also be connected.

"Greater caller satisfaction"

MultiPBX

ADVANCED BUT AFFORDABLE TELEPHONE SYSTEMS FOR THE HOME AND OFFICE

Included are a range of 'big switch' features such as call waiting, call forward, follow me and transfer to me as well as call barring to prevent designated phones from making outbound calls. Users can play their own choice of 'music on hold' or marketing messages to present a professional image when callers are put 'on hold'.

All models are suitable for DIY installation and are easy to programme and operate using standard telephones. A comprehensive twelve-month warranty is also provided that includes a free technical helpdesk during normal working hours.

Features

• VALUE FOR MONEY

Although offering an extensive range of benefits, they are eminently affordable

• INCREDIBLY VERSATILE

They can accommodate faxes, modems for the Internet, full intercom and door entry facilities

• APPEALING DESIGN

Aesthetically pleasing to the eye the units are also very compact so can be wall mounted.

• CONNECTION TO INTERNET PROTECTED

Another person trying to make an outgoing call will not interrupt the Internet connection

• EASY TO USE AND INSTALL

Designed and manufactured in the UK, these systems are very advanced but are simple to use and install and don't require special system telephones

• PROFESSIONAL IMAGE

To enhance a business' image of professionalism, certain extensions, such as the Reception Extension, can be given priority and the Multi 10, despite its increased capacity, still does not require an operator

• CALL ME, FOLLOW ME, TRANSFER TO ME

These functions are included so as not to leave important calls waiting to be answered

• MUSIC ON HOLD

It is courteous to play music or information on hold and users can select their own music and information to be played

• COMPATIBILITY

This is the key for the efficient running of the MultiPBX. Both models are compatible with an answering machine and network services as well as supporting the Internet
