

USER GUIDE Veva 1720

Veva 1720 Twin Veva 1720 Triple **Digital Cordless Telephone** with Answer Machine

Binatone Helpline (for UK only) Monday to Friday from 9:00am to 5:00pm Tel: 0845 345 9677

**Please note that all calls are charged at local rate Or visit our website: www.binatonetelecom.com

THIS EQUIPMENT IS NOT DESIGNED FOR MAKING EMERGENCY TELEPHONE CALLS WHEN THE POWER FAILS. ALTERNATIVE ARRANGEMENTS SHOULD BE MADE FOR ACCESS TO DIAL EMERGENCY SERVICES

> Before operating this set, please read these instructions carefully

2	INSTALLING YOUR PHONE
2.1	Connecting the base station
1)	Plug the power supply and line cord The base station.
2)	Plug the power adapter into a 230Vac, 50Hz mains socket, and the line cord into your telephone line socket.
3)	Always use the cables provided in the box Warning: Use only the provided adaptor, using other power supplies may cause a hazard. Warning: Install the base unit in a position where the mains adapter plug will reach an easily accessible mains socket. Never try to lengthen the mains power cable. Note: The base unit needs mains power for normal operation, not just for charging the handset batteries.
2.2 1)	Installing and charging the batteries

compartment with the polarity markings as shown. Use only the NiMH rechargeable battery type provided.

- 2) Position the battery compartment cover over the batteries and slide up to click into place. 3) Put the handset on the base and charge for
- 15 hours before using the handset for the first time. The handset will give a beep when it is properly placed on the base or charger If you have a Broadband line

If you connect your telephone to a line with

a broadband connection, you will need to insert a micro-filter between the telephone and the telephone line, otherwise you may get

interference between the telephone and the broadband. which could cause problems

In a home with broadband, every telephone must have a micro-filter connected, not just the one at the telephone point that your modem is connected to. If you need more broadband micro-filters, contact your broadband supplier

During a call press <TALK OFF> to end the call.

Put the handset on the base station or charger to end the call.

4.4 Adjust Volume There are 5 levels (VOLUME 1 to VOLUME 5) to choose from for the earpiece

volume.

During a call: Press <UP/DOWN> to select volume 1-5. The current setting is shown. When you end the call, the setting will remain a

4.5 Mute a Call

You can talk to someone nearby without letting the caller hear you during a call. During a call:

Press <C/MUTE> to mute the microphone and "MUTED" will display on the LCD. Your caller cannot hear you. Press <C/MUTE> again to unmute the microphone.

4.6 Turn off the Handset Ringer

In idle, press and hold <HASH/#> to turn off the handset ringer. The "RINGER OFF" icon is displayed on the LCD.

Note: The display will still flash the Call icon and show CALL or the Caller Display number, when there is an incoming call, even if the ringer is turned off To turn the ringer back on, press and hold <HASH/#> again.

4.7 Turn on the Keypad Lock

In idle, press and hold <STAR/*> to turn on the keypad lock, and the "KEY LOCK" icon is displayed on the LCD.

- Note: You can still use <TALK ON> to answer a call when the handset is ringing.
- To turn the keypad lock off, press and hold <STAR/*> again

4.8 Redial the last number

You can redial any of the 5 last numbers called. If you have stored a name in phonebook to go with the number, the name will be displayed instead. The most recent last number will display at the top of the redial list. 4.8.1 Redial a Number from the Redial List

1. Press <REDIAL> to access the redial list.

Note: If the redial list entry shows a name, press <Hash/#> to view the number of this entry. 2. Press <UP/DOWN> to browse the redial list.

Press <TALK ON> to dial to the selected redial number

Note: If there are no numbers in the redial list, the display shows "EMPTY" 11

Port specification

The port (connected to the mains power supply) is a SELV port with respect to EN41003.

The mort (connected to the telephoneline) is a TNV port with respect to EN41003.

CLEANING AND CARE

Do not clean any part of your phone system with benzene, thinners or other solvent chemicals as this may cause permanent damage which is not covered by the Guarantee

When necessary, clean it with a damp cloth.

Keep your phone system away from hot, humid conditions or strong sunlight, and don't let it get wet.

Every effort has been made to ensure high standardsof reliability for your phone system. However, if something does go wrong, please **do** not try to repair it yourself consult your supplier or the Helpline

GETTING TO KNOW YOUR PHONE 3 3.1 Handset Overvie 1 UP (🐴) From idle: access the Call List In lists: move up the options During calls / ringing: increase the volume 2 LEFT SOFT KEY(Menu)

Use with icons on display above, to open menu and confirm options 3 TALK ON(Talk) Make or answer calls 4 DOWN(*)

In lists: move down the options During calls / ringing: decrease the volume

5 REDIAL(Redial) From idle: access the Redial List

6 RIGHT SOFT KEY(C/Mute) (CLEAR/BACK/MUTE/INTERCOM)

Use with icons on display above, to clear characters, go back to previous menu, mute the microphone or make an intercom call.

7 TALK OFF(off) End a call or return to previous menu.

Press and hold to turn the handset on / off.

8 R - RECALL(Flash) also called Flash

Sends a recall (R) signal, used for some PBX / Calling Features.

4.8.2 Store a Redial Number into the Phonebook

- 1. Follow Steps 1 and 2 in section 4.8.1. Press <MENU/OK> to show ADD TO PB.
- 3. Press <MENU/OK> and then enter the name you want to use in the
- phonebook. Press <MENU/OK> and then modify the number, if necessary

5. Press <MENU/OK> to show <MELODY 1>.

- Press <UP/DOWN> to browse the ringtone list. The respective ringtone will be played when browsing the ringtone list. (Note: the selected melody will only be played if you subscribe to Caller Display and the incoming number natches the stored number.)
- 7. Press <MENU/OK> to confirm, and the entry will be stored
- 4.8.3 Delete a Redial Number
- 1. Follow Steps 1 and 2 in section 4.8.1. 2. Press <MENU/OK> and <UP/DOWN> to select DELETE. 3. Press <MENU/OK> to confirm, and the entry will be deleted.
- 4.8.4 Delete all Redial List entries

1. Follow Steps 1 and 2 in section 4.8.1.

- 2. Press <MENU/OK> and <UP/DOWN> to select DELETE ALL
- 3. Press <MENU/OK> to display <CONFIRM ?>.
- 4. Press <MENU/OK> to confirm. All entries will be deleted and the display will show <EMPTY>.

4.9 Find the Handset

You can locate the handset by pressing <FIND> on the base station. All the nandsets registered to the base will produce the paging tone and show "PAGING" on the display. You can stop the paging by pressing <TALKON>/ <TALK OFF> /<C/MUTE> on any handset or <FIND> on the base again. Note: If there is an incoming call during paging, the phone will ring with the incoming call instead of paging.

4.10 Make an Internal Call (Multi - handset versions only)

This feature is only applicable when there are at least two registered handsets. It allows you to make internal calls, transfer external calls from one handset to another handset and make conference calls. If the called handset is not answered within 60 seconds, the called handset will stop ringing and the calling handset will return to standby mode

Note: If only one handset is registered to the base station, when <C/MUTE> is pressed, it will display "NOT POSSIBLE"

Press <UP> or <DOWN> to go to other options in the menu list. Press <MENU / OK> to enter a sub-menu or function. Press <C / MUTE> to go back to the previous level.

Refer to the following for the menu structure.

PRIVATE PHONEBOOK

Each handset can store up to 20 private phonebook entries with names and numbers. Each phonebook entry can have a maximum of 20 digits for the phone number and 12 characters for the name. You can also select different ringtones for your phonebook entries. (Note: the different ringtones only play i you subscribe to Caller Display and the incoming number matches the stored number.) Phonebook entries are stored alphabetically by name

5.1 Add a New Phonebook Entry

1 Press <MENU/OK> and <UP/DOWN> to select **PHONEBOOK** and then press <MENU/OK> to access the phonebook.

Press <MENU/OK> to show ADD. 3 Press <MENU/OK> and then enter the name

Press <MENU/OK> and then enter the number.
 Press <MENU/OK> and <UP/DOWN> to select the desired ringtone for

your phonebook entry.

6. Press <MENU/OK> to store the phonebook entry.

5.2 Search a Phonebook Entry

1. Press <MENU/OK> and <UP/DOWN> to select PHONEBOOK and then

press <MENU/OK> to access the phonebool 2. Enter the first letter of the name using the alphanumeric keys(e.g. if it

begins with C, press the 2 key three times), and then <UP/DOWN> to scroll to the entry you want.

5.3 View a Phonebook Entry

1. Press <MENU/OK> and <UP/DOWN> to select PHONEBOOK and then press <MENU/OK> to access the phonebool

2. Press <UP/DOWN> to select the desired phonebook entry.

3 Press <MENU/OK> and <UP/DOWN> to select VIEW.

14

4. Press <MENU/OK> and <UP/DOWN> to review the name, number and rinatone of the selected phonebook entry.

Note: If the number is more than 12 digits, press <LEFT SOFT KEY> or <RIGHT SOFT KEY> to view the remaining digits.

IMPORTANT SAFETY INSTRUCTIONS

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the

1) Read and understand all the instructions.

- 2) Follow all warnings and instructions marked on the product.
- 3) Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
- 4) Keep your phone away from hot, humid conditions or strong sunlight, and don't let it get wet or use this product near water (for example, near a bath tub, kitchen sink, swimming pool).
- 5) Do not overload wall outlets and extension cords as this can result in the risk of fire or electric shock.
- 6) Unplug this product from the wall outlet and refer servicing to our Repair Centre under the following conditions · When the power supply cord or plug is damaged or frayed
- If the product does not operate normally by following the operating instructions. • If the product has been dropped and the cabinet has been damaged.
- If the product exhibits a distinct change in performance. 7) NEVER use your phone outdoors during a thunderstorm-unplug the base from the telephone line and the mains socket when there are storms
- in your area. Damage caused by I ightning is not covered by the guarantee 8) Do not use the telephone to report a gas leak in the vicinity of the leak. 9) Use only the supplied NiMH (Nickel Metal Hydride) batteries! The operation
- periods for the handsets are only applicable with the default battery capacities 10) The use of other battery types or non-rechargeable batteries/primary cells can be dangerous. These may cause interference and/or damage to the unit
- or surroundings. The manufacturer will not be held liable for damage arising from such non-compliance. 11) Do not use third party charging bays. Damage may be caused to the batteries.
- 12) Please ensure the batteries are inserted in the correct polarity

13) Dispose of batteries safely. Do not immerse them in water, burn them, or pu them where they could get punctured.

Package contents The package contains the following items:

- 1 Handset 1 Base station
- 1 Mains power adapter
- 1 Telephone line cord
- · 2 AAA rechargeable batteries 1 User manual

Note: If you have a Twin. Triple or Quad system, you will also have the requisite extra handset(s) and batteries, and a charger pod for each extra handset.

Connection and conditions for use:

You can connect your phone to a direct exchange line (DEL) on a local exchange with its own phone number: to an extension socket connected to a DEL: or to an extension on an approved compatible PBX. Do not connect as an extension to a payphone.

The ringer equivalence numbers (REN) of all equipment (phones, fax machines, modems, etc.) connected to an exchange line must not add up to more than 4, otherwise one or more of them may not ring and/or answer calls correctly. The phone has a REN of 1, and most other telephones have a REN of 1 unless marked otherwise

Handset - Base Connection

1) When purchased, all handsets are already registered to the base unit and should link to it when they are all powered up

2) To use your cordless handset and base unit together, you must be able to

establish a radio link between them. The signal between the handset and the base is in accordance with the normal standards for a DECT phone: Maximum range up to 300 metres outdoors or 50 metres indoors. Be aware that: > Any large metal object, such as a refrigerator, mirror or filing cabinet, between the

- handset and the base unit may block the radio signal.
- > Other solid structures, like walls, may reduce the signal strength

> Other electrical equipment may cause interference and/or affect the range. 3) Do not place close to another telephone, a TV or audio equipment - it may cause interference.

4) Out of Range warning. If you hear a warning tone during a call, and/or the sound in the earpiece becomes faint or distorted, you may be going out of range of the base unit, so move nearer to the base unit within 20 seconds, otherwise the call may be cut off.

4

4 USING YOUR PHONE

4.1 Make a Call

4.1.1 Preparatory Dialling

Enter the phone number and press <TALK ON> to connect to the line and dial the number. When entering the number, if you make a mistake, press <C/MUTE> to delete digits.

4.1.2 Direct Dialling

Press <TALK ON> to connect to the line and then enter the phone number. (Note: if you enter a wrong digit you cannot correct it with the <C/MUTE> key.)

4.1.3 Call from the phonebook Press <MENU/OK>, <DOWN> and then <MENU/OK> again to access the phonebook and press <UP/DOWN> to select the desired phonebook entry

Press <TALK ON> to dial out the selected phonebook entry.

Note: The alphanumeric keys provide a short-cut to find entries beginning with the corresponding letters.

6 CALLER DISPLAY (NETWORK DEPENDENT)

This feature is available if you have subscribed to the Calling Line Identification service with your network service provider. Your phone can store up to 10 received calls with date/time information in the Call List. The number will be shown on the handset display when the phone is ringing. If the number matches with one of the entries in your Private Phonebook, the caller's name stored in the private phonebook will be displayed alternately with the number, and the handset will ring with the ringtone associated with that phonebook entry If the call is from someone who withheld their number, e.g. by dialling 141,

"WITHHELD" will display. If the call is from someone whose number is unavailable, e.g. an international call or from a private exchange, "OUT OF AREA" will display

If you've got new Caller Display records, the handset will display "X NEW CALLS" in standby mode. The New Calls indication will remain until all the new call records have been viewed.

6.1 View the Call List

All received calls are saved in the Call List with the latest call at the top of the list. When the call list is full, the oldest call will be replaced by a new call. Any unanswered calls which have not been viewed are marked with a <*> icon at the centre of the bottom line of the display.

- 1. Press <UP> to access the call list.
- OR Press <MENU/OK> to show CALL LIST and then press <MENU/OK>.
- 2. Press <UP/DOWN> to select the desired entry. Press <#> to view the caller's number if applicable
- 4. Press <MENU/OK>, <UP/DOWN> to show DETAILS, and then <MENU/OK> to display the date and time of the call. Press <MENU/OK> to go back to the previous screen
- 6.2 Store a Call List Number into the Phonebook
- 1. Follow Steps 1 and 2 in Section 6.1.
- Press <MENU/OK> and <UP/DOWN> to show **ADD TO PB**.
- Press <MENU/OK> and then enter the name Press <MENU/OK> and the selected call list number is displayed.
- Edit the number if necessary. Press <MENU/OK> and <UP/DOWN> to select the ringtone.
- 7. Press <MENU/OK> to store the phonebook entry and return to the calls list.
- 6.3 Delete an entry in the Call List
- 1. Follow Steps 1 and 2 in Section 6.1
- 2. Press <MENU/OK> and <UP/DOWN> to select DELETE 3. Press <MENU/OK> to confirm.

7.5 Registration

IMPORTANT: When you purchase a phone system, all handsets are already registered to your base, so you do not need to register them. Handset registration is only necessary when you buy extra handsets or if a handset has become faulty.

17

You can register additional handsets to have up to five handsets per base unit, with each handset's number (1 to 5) shown on its display. (Note: each handset can only be registered to one base.)

- To register a new handset to your base
- 1. Press and hold <FIND> on the base station for more than five seconds, to put the base station into registration mode. It will stay in registration mode for about 1 minute, so the following handset sequence must be completed within this time.
- 2. Press <MENU/OK> and <UP/DOWN> to select **REGISTRATION**.
- Press <MENU/OK> to display PIN?--
- Enter the 4-digit system PIN (default 0000). 5. Press <MENU/OK> to confirm, and the display will show SEARCHING. If the handset registration is successful, you will hear a confirmation tone and
- the <antenna icon> will stop flashing. The handset will automatically be allocated the next available handset number. This handset number is shown in the handset display in standby mode. If the handsetregistration is unsuccessful, the <antenna icon> will still flash and the display will return to REGISTER, so you will need to repeat the registration process.

7.6 Reset Your Phone

You can reset your phone to the default settings . After a reset, all your personal settings, call list entries, redial list entries, and answering machine messages will be deleted but your phonebook remains unchanged 1. Press <MENU/OK> and <UP/DOWN> to select DEFAULT.

- Press <MENU/OK> to display PIN?----.
 Enter the 4-digit system PIN (default 0000)
- 4. Press <MENU/OK> to display CONFIRM?
- 5. Press <MENU/OK> to confirm, and the phone will be reset to its default
