

USB742UK
Compact USB Charger
Item ref: 421.742UK
User Manual

Function:

This compact USB charger has a power output of 2100mA, making it ideal for charging tablet computers and smartphones.

1 x USB 2100mA output
Ideal for tablet and smartphone use
Uses 25% less power compared to standard chargers

Technical data:

Input Voltage: AC 100 - 240V 50/60Hz
Output Voltage: DC 5V
Output current: 2100mA max.
Output power: 10.5W

Instructions:

1. Please read these instructions fully before using this apparatus.
2. For office equipment use only.
3. Check the housing for damage.
4. Connect the unit to be powered to the USB socket.
5. The unit to be powered **must not** draw more current than the maximum continuous current of the power supply, in order to prevent overload. (The continuous current draw, should be no more than 80% of the output current max.).
6. Plug the power supply into a wall outlet.

Warning:

1. For indoor use **ONLY**.
2. Risk of electric shock, **do not open**.
3. **Do not** install and operate the device in extreme heat, moisture or dusty environments.
4. **Unplug** the power supply when not in use.
5. The appliance is not intended for use by children or infirm persons without supervision.
6. This appliance is **not** intended for use by persons (include young children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
7. Young children should be supervised to ensure they do not play with the appliance.
8. This unit is double insulated.

Disposal:

Please dispose of this device according to the current statutory requirements.
