

Ofcom application form OfW432

Application Form for a Business Radio Light Licence

1. Please note that applicants are encouraged to register and apply for their licences via the Ofcom website at www.ofcom.org.uk.
2. Before filling out this form, please read these notes. If you are unsure how to complete any part of this form, please refer to the Guidance Notes at the end of the form.
3. All fields are mandatory unless stated otherwise.
4. Please use **BLOCK CAPITALS** and **black ink** throughout this form.
5. Incomplete or illegible applications may result in delays and/or the application form being returned.
6. When making a new application you are advised not to commit to the purchase of the equipment until we have notified you of your assignment(s).
7. The Wireless Telegraphy (Licence Charges) Regulations set out the fees for licences to use radio equipment issued under the Wireless Telegraphy Act.

Information on how to calculate your licence fee can be found on the Ofcom website.

8. Data protection

Ofcom may use or share your information to help us:

- a) issue, amend, validate and/or surrender a Wireless Telegraphy Act licence;
- b) maintain and publish a register of licences under the Wireless Telegraphy Act.

Ofcom will not give anyone your information except:

- a) where we have your permission; or
- b) where we are required or permitted to do so by law; or
- c) to other companies or organisations who provide a service to us or you.

We may transfer your information to other countries. If we do this we will ensure that anyone to whom we pass it provides an adequate level of protection.

What type of licence do I need?

Simple Site Light

This licence authorises the use of a radio system operating a base station and mobile stations within a small geographical area (typically 1 kilometre or less). Frequencies available under this licence class are typically used for radio paging systems. Ofcom does not assign specific frequencies to licensees. Instead, licensees have access to a range of frequencies and must share and self-coordinate with other Simple Site Light licensees (for example by selecting unused channels). The licence fee is £75 for five years.

Simple UK Light

This licence authorises the use of hand-portable or mobile radio equipment anywhere within the UK. Base station use is not permitted. Licensees have access to fifteen frequencies spread across four Business Radio frequency bands and must share and self-coordinate with other Simple UK Light licensees. The licence fee is £75 for five years.

Suppliers Light

This licence is a specialist licence for Radio Suppliers and permits them to:

- service and repair business radio and marine equipment
- hire out business radio (including trunked business radio) and/or radio paging equipment to customers for up to one year
- allocate business radio (including trunked business radio) equipment to customers awaiting Business Radio licences, for up to three months ('parking')
- demonstrate business radio (including trunked business radio) equipment to customers for up to eight days

Licensees have access to a wide range of frequencies and must share and self-coordinate with other Suppliers Light licensees. The licence fee is £75 for five years.

General information

Under the terms of the Wireless Telegraphy Act 2006, it is an offence to install or use radio apparatus, unless:

- you do so under and in accordance with a licence issued by Ofcom (the Office of Communications); or
- the apparatus is specifically exempt from licensing.

Responsibility for obtaining and paying for a licence rests with the user of the system, not with the supplier of the equipment. You may need the help of your equipment supplier to complete the technical part of the form. Submitting a licence application form does not permit you to use or even install any equipment – you must wait until we have issued the licence and you have received it.

Radio interference

Since the operation of a new system may cause interference to existing users, your supplier may consider it necessary to carry out compatibility tests before you apply for your licence. Once installed and operating, your system must not cause undue interference to any other wireless telegraphy equipment. If it does, you may need to stop operating until the cause of the interference has been rectified. Ofcom cannot offer any protection against interference radiated by other authorised services, or by industrial, scientific and medical equipment; however, if you do experience interference, please contact the Ofcom Licensing Centre on 0300 123 1000.

The remainder of these guidance notes provide section by section guidance on the information requested within this application form:

Section B – Customer details

Q1 – Existing customers

If you already hold an Ofcom radio licence, you should write your customer reference number in the box provided. Your customer reference number will be quoted in licence documentation or correspondence that we have previously sent to you.

Q4 – Licensee name and address

If you are applying on behalf of a Limited Company, a Public Limited Company or a Registered Charity, the registered address of the organisation must be used.

Section C – Station details

You only need to complete this section if you are applying for a Simple Site licence.

Q1 – Site location

The site location refers to the location of your radio base station antenna. The location can either be recorded using longitude and latitude coordinates or a National Grid Reference (NGR). These can be checked on a map. Alternatively, you may be able to obtain your location coordinates or NGR by entering your station location postcode in certain mapping websites.

Q2 – Site address

The site address is the full postal address for the base station location.

Q3 – Site contact name and address

The site contact is the person we would contact in the event that we need access to the base station antenna, e.g. in relation to interference investigations.
