

Berkshire Telephone Range

the range of telephones that make the right connection

A range of telephones designed specifically to meet the needs of hotels

The **atl** Berkshire telephone range has been aesthetically and ergonomically designed to compliment any hotel environment, retaining its 15 year pedigree and reputation for being a robust and highly reliable product. The range includes an entry level Berkshire 200 telephone that has proved so successful in hotels with its large area for printed information, and its message waiting indicator. The Berkshire 400 with its 12 one touch no volatile memories that can be easily pre-programmed with hotel services. The Berkshire 600 for the more executive client that require the luxury of full handsfree plus all the features offered by the Berkshire 600. Finally to complete the range there is also the Berkshire 800 that boasts the comprehensive functionality of the Berkshire 600 with the additional Caller Identification feature for the your Elite Executive Guests.

A range of telephones designed specifically to meet the needs of hotels, all having MW & Modempoint connectability.

Features promoting extra-revenue generation and guest-return, including:

- Modempoints
- One-touch dialling of hotel services
- Hands-free speech
- Sleek attractive styling with professional logo and information printing on a per-hotel basis.
- Benefit of latest electronic technology and most flexible system design by experts in European PBX/hotel telephones who really know what is needed.
- The proven robustness and reliability as backed by **atl's** 10 year warranty.

2 - Calls working

Business users on the move often want to have two voice-calls in progress at the same time. (Note: this doubles your revenue!)

The Berkshire 400, 600 and 800 can be printed and programmed to facilitate use of the special call-connect features of your PBX or hotel services, thus eliminating the need for expensive printed material for each guest bedroom.

One-Touch Dialling of Hotel Services

The purpose of one-touch dialling keys is to make life easier and more welcoming for the guest. By pressing a pre-programmed key next to the appropriate service, the guest can get directly to the restaurant booking, or further nights' reservation he wants to make. Can for instance contact the restaurant, concierge, leisure centre or any other service.

atl's 10 year warranty for peace of mind.

The Berkshire Telephones are designed and manufactured to the highest standards. Together with the ten year warranty, it is your assurance of good quality and high reliability.
