DEAR CUSTOMER

You have just acquired a new generation Sagemcom telephone. Thank you for placing your confidence in us

This device has been manufactured with the utmost care.

If you should have difficulties in operating it, we recommend that you consult this manual or contact the Sagemcom Support Team on 0845 0900 316*.

You can also find information on the following site:

www.sagemcomdigital.co.uk

For your comfort and safety, we ask that you read the following section carefully: ndations and safety instructions »

> The CE marking certifies that the product meets the essential requirements of Directive 1999/5/CE of the European Parliament and of the Council pertaining to microwave radio equipment and telecommunication terminal equipment, for the safety and health of users, for electromagnetic interference.

> Furthermore, it efficiently uses the frequency spectrum attributed to ground and munication to prevent damaging interference

The declaration of compliance may be looked up on the **www sagemeom com** site "Support" section or can be obtained from the following add

> Sagemcom Broadband SAS 50, route de l'Empereur 92848 Rueil-Malmaison Cedex - France

D750-D750A

GENERAL PRODUCT CARE

eep your telephone working and looking good, follow these guidelines

- · Avoid putting the phone near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps) • DO NOT expose to direct sunlight or moisture
- Avoid dropping and other rough treatment to the phone Clean with a soft cloth.
- Never use a strong cleaning agent or abrasive powder because this will damage the finish. Retain the original packaging in case you need to ship the phone at a later date

- Changing the batteries Make sure the telephone is OFF before you replace batteries. 1. Remove the batteries compartment door.
- Remove old batteries. Insert the new batteries.
- Put the batteries compartment door back or
- Place handset in the base to charge

TROUBLESHOOTING

- Causes of poor reception:
- Aluminium siding. Foil backing on insulation. Heating ducts and other metal construction can shield radio signals. You are too close to appliances such as microwaves, stoves, computers, etc.
- Atmospheric conditions, such as strong storms Base installed in the basement or lower floor of the house.
- Handset batteries are low. You are out of range of the base

Troubleshooting

	Problem	Solution	
-	No display	 Make sure the batteries are properly installed and connected. Place the handset on the charger and fully charge the battery (at least 15 hours). 	
	Handset does not ring	Make sure the RINGER setting on the handset is programmed to ON. You may have added too many handsets to your phone line. Try disconnecting some of your phones and try again.	
	Not possible to make a call despite dial tone	 Check that your handset is within range and move close to the base unit (approximately 50 meters indoors and up to 300 meters in open space). Check if the base unit is plugged into a wall socket that is shared with other household appliances. Unplug other device and try again.

Modify the answering machine language

You can choose the language of your answering machine. The messages will be played back in the language you select

- 1. Go to the menu "RNS. RECHINE" \rightarrow "TRR SETTINGS" \rightarrow "TRR LANGURGE".

Modifying the outgoing message (OGM)

- Recording a personal outgoing message Go to the menu "BNS_RBCHINE" \rightarrow "TBR_SETTINGS" \rightarrow "DGR_SETTINGS" \rightarrow "BNSW & REC" (or "BNSWER DNLY").
- 2. Select "RECORD DGA" using the ▲ or key, press
- Record your message.
- At the end of your message, press
- A beep will confirm that your message is now being used.

If you make a mistake while recording the message, repeat the operations described above until you are satisfied with your message

NOLE! The recording of a new message will automatically replace the previous message.

NOLE! The maximum recording duration for an message is **120 seconds**. The recording start and end beeps are not part of your message.

Listening to your answer machine message

- 1. Go to the menu "RNS, RECHINE" "→"TRA SETTINGS" →"GGA SETTINGS" →"RNSW & REC" (or "RNSWER GNLY").
- 2. Select "PLRYBREK" using the ▲ or key, press
- 3. Your current answer machine message will be played. Your handset will automatically return
- NOLE! If you have not saved a personal message, the answering machine will automatically use one of the pre-recorded messages.

Number of rings

This parameter enables you to set the number of times your telephone rings before the answering machine answers a call. The number of rings can be set between 2 and 8. You can also select the "TIRE SRIFE" mode. The "TIRE SRIFE" mode automatically determines the number of rings: If there are no new messages on the answering machine, the number of rings will be 4, otherwise the number of rings will be 2.

- 1. Go to the menu "BNS, MACHINE" \rightarrow "TRM SETTINGS" \rightarrow "BNSWER DELBY".
- 2. In the list, select the desired number of rings (between 2 and 8) using the A or key or the " TIME SAVER " mode, press

ENVIRONMENT

Environmental protection and sustainable development is an important priority for Sagemcom. Sagemcom has a policy of using environmentally- friendly systems and makes environmental protection an essential part of the life-cycle of its products – from manufacturing, to installation, operation and disposal.

Packaging

The presence of the logo (green dot) means that a contribution is paid to an approved national organisation to improve packaging recovery and recycling infrastructures. To facilitate recycling, please respect the sorting rules set up locally for this kind of

Batteries f your product contains batteries, they must be disposed of at appropriate collection points.

The product

- The crossed-out waste bin stuck on the product or its accessories means that the X
 - product belongs to the family of electrical and electronic equipments. In this respect, the European regulations ask you to dispose of it selectively:
 - At sales points in the event of the purchase of similar equipment.
 At the collection points made available to you locally (drop-off centre, selective)

collection, etc.).

In this way you can participate in the re-use and upgrading of Electrical and Electronic Equipment

TERMS AND CONDITIONS FOR UNITED KINGDOM & IRELAND ONLY

In order to apply the guarantee, or for technical assistance, you should contact the Sagemcom Helpdesk (**0845 0900 316**) or the retailer you purchased your equipment from. Please make sure that you use your equipment only for the purpose for which it was designed and under normal usage onditions. Sagemeet do not accept any liability for the equipment if used outside the frame of its should any malfunction arise, the Sagemcom Helpdesk or your retailer will advise you how to proceed.

A) General Guarantee conditions

affect the Customer statutory rights.

ncom undertakes to remedy by repair or exchange at its own convenience, free of charge for labour and replacement parts, any defects in the equipment during the guarantee period of 12 (twelve) months or 3 (three) months for accessories, from the date of original invoice of the Equipment, where those defects are a result of faulty workmanship.

Unless the customer has concluded with Sagemcom a maintenance contract in respect of the equipment which specifically provides for repairs to be carried out at the customer's premises, the

repairs which apecined up tordes to repairs to be carried out at the customer spremises, the repairs will not be carried out on the equipment at the customer premises. The customer must however return the defective equipment at his/her own expense, to the address supplied by the Sagemcom Helpdesk or by the retailer. In the case that a product needs to be sent in for a repair, it must always be accompanied by a proof of purchase (which is not altered, written on or in any way made illegible) showing that the product is still under guarantee. In the case that no proof of purchase is enclosed, the Sagemcom repair centre will use the production date as its reference for establishing the guarantee status of the product Apart from all legal obligatory

rules, Sagemcom, do not give any Guarantee, either implicit or explicit which is not set force in the present section, and can not be held responsible for any direct or indirect, material or immaterial

damage, either in or out of the frame of the present guarantee. If any provision of this guarantee shall be held to be in whole or in part invalid or illegal due to an obligatory rule applicable to consumers pursuant to their national legislation, such invalidity or illegality shall not impair or affect the remaining provisions or parts of this guarantee. This guarantee does not
