

# Quick Start

## Nighthawk X4S

### AC2600 WiFi VDSL/ADSL Modem Router

Model D7800

**NETGEAR®**

## Package Contents

## 1. Attach the Antennas

Remove the antenna caps. Attach the antennas on the threaded antenna posts and position the antennas vertically.

## 2. Plug In Your Modem Router

Connect the DSL port on the modem router to a DSL outlet.

If your package came with a DSL microfilter, install the DSL microfilter and connect it to the DSL port on the modem router. You can also connect a phone to the DSL microfilter.

Connect the power adapter to the modem router and press the **Power** button.

The Power LED  lights white. If the modem router is connected to a DSL service, the DSL LED  lights white.

## 3. Connect to the Internet

You can either use an Ethernet cable or connect with WiFi to the modem router.

To connect with WiFi:

Make sure that the WiFi LED () on the modem router is lit. The WiFi network name and password are on the label on the modem router.

Open the WiFi connection manager on your computer or WiFi device, find the modem router's WiFi network name, and use the modem router's password to connect.

Launch a web browser. If the NETGEAR installation assistant does not display, visit **www.routerlogin.net**. If a login window displays, enter **admin** for the user name and **password** for the password.

Follow the NETGEAR installation assistant steps to connect to the Internet.

If the modem router does not connect to the Internet, see the user manual, which is available online at [support.netgear.com/product/D7800](http://support.netgear.com/product/D7800) or visit [community.netgear.com](http://community.netgear.com) for help.

## All Set Up!

**Note:** To connect to the modem router, you can use either a computer with an Ethernet cable connection or a computer with a WiFi connection.

**Note:** If you set up the modem router for a DSL connection, you do not need to use the red Internet port on the modem router.

**For more information about your modem router, see the Do More booklet.**

## Get Free Apps

Start enjoying your new modem router right away with free apps that make management simple. Visit [support.netgear.com/product/D7800](http://support.netgear.com/product/D7800) to download the apps.

**NETGEAR genie.** Personal dashboard to monitor, control, and repair your home network.

**ReadySHARE Vault.** Free software for automatic backup of a Windows computer to a USB hard drive connected to the router.

**ReadyCLOUD.** Enjoy personal and secure cloud access to USB storage anytime, anywhere.
