

Switch between **two** audio sources using **one** headset

UI 815

UI 815

The Sennheiser UI 815 switch box is ideal for offices and contact centers looking for a smooth, cost-effective migration to a Unified Communications solution or simply use a combination of two audio sources to maximize operational efficiency.

The UI 815 switch box is simple and intuitive to use and the ergonomic design allows you to switch between devices with one hand only. The Easy Disconnect plugs are designed to withstand the daily wear and tear of shift changes and flex working.

The user-friendly switch box enables you to answer calls from a desk phone, softphone/PC or a smartphone using the

same Sennheiser Easy Disconnect headset. By switching between two different audio sources using only a single headset, you can either use your existing Sennheiser desk phone headset or invest in a future proof headset solution.

After the migration to a Unified Communications solution, the UI 815 switch box continues to add value by allowing users to switch between softphone and mobile phone.

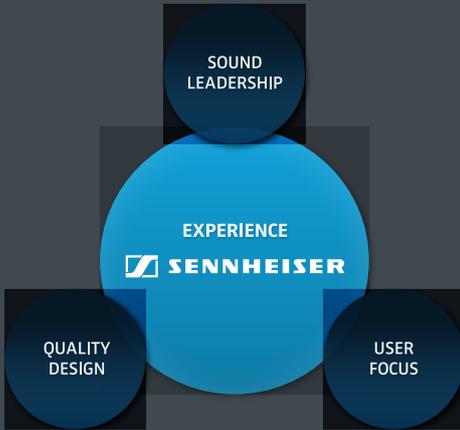

Features and Benefits:

- Cost-efficient transition to UC – switch between desk phone, softphone or mobile phone

- Maximize investment – continue using your existing Easy Disconnect headset from Sennheiser
- Smartphone compatible – switch between mobile phone and softphone
- Simple User Interface – intuitive switch option between two different devices
- Easy Disconnect – easily disconnect your headset when you move away from the desk
- Robust construction – crafted with look and feel in mind
- 2 years warranty

Product Information

Product name	UI 815
Art. No.	506496
EAN No.	40 44155 20613 5
UPC No.	6 15104 26910 1
Product description	Switch box for wired headsets
General Data	
Product weight	88 g / 3.1 oz

Units in master carton	20 pcs
Master carton weight incl. Products	5.31 kg / 11.7 lbs
Dimensions of master carton (L x W x H)	615 x 415 x 185 mm / 24.21 x 16.33 x 7.28 in
Content of delivery	
Box content	- Switch box - Quick Guide - Compliance sheet
Warranty	2 years

Experience Sennheiser

Perfection is always relative: Users have different expectations from their headsets and speakerphones depending on their needs. For professional users, that need is to communicate as effectively as possible.

With Sennheiser's range of headsets and speakerphones, the combination of Sennheiser sound leadership, quality design and build – and a focus on real life usability – give the best performance possible in offices, contact centers and Unified Communications environments.

Sennheiser is one of the world's leading manufacturers of headphones, microphones, wireless transmission systems and high-quality headsets for both business and entertainment.

Drawing on the electro acoustics expertise of Sennheiser and the leading hearing healthcare specialist William Demant, Sennheiser Communications' wireless and wired headsets and speakerphones for contact centers, offices and Unified Communications professionals are the result of Sennheiser's and William Demant's joint leadership in sound quality, design, wearing comfort and hearing protection.
